

SWANTEX

SW-7200 SID V DT

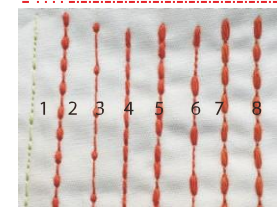

Computerized two step single needle lockstitch sewing machine with UBT, stepping motor, auto presser foot lifter .

Small bird nest:

Using the unique trimmer device to achieve small bird nest. ---Step motor trimming system and new Digital Tension, that make the thread short and stable.

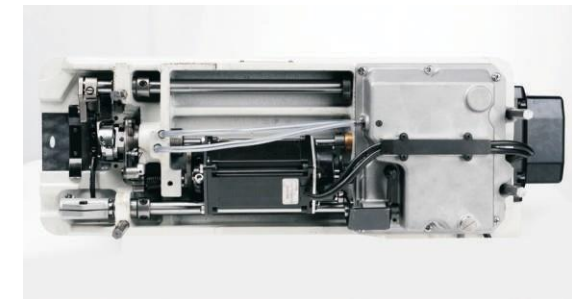

Special Stitch Pattern

Controlled by step motor system, SW-7200 SID V DT machine it can design 8 types stitch patterns cloft pic 1-8.

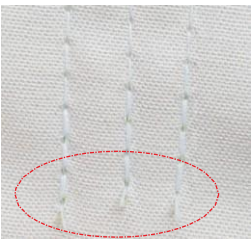

The unique thread trimmer device:

Adopt step motor to drive, stable, light noise and convenience on maintenance.

Step motor bidirectional driven technology (patent):

One step motor control trimming and pressing foot lifter work

Adopt trimming cam control double round knife trimmer system, thus realizes after trimmer the thread less than 3mm, effectively reduce manual trimming workload, cause of the thread will cut under the needle.

Low noise:

- a. Optimized design of modle body,
- b. motor without bearing,
- c. Step motor control reverse sewing with light noise.
- d. Step motor control press foot lifter,
- e. Step motor control trimmer, light noise for trimmer.

Oil pan design:

Seaied oil tank, avoid cloth dirty from oil. Reduce noise when machine working.
