SW-777 DD

Stepping three-drive lockstitch sewing machine with side cutter

Subversive innovative design, a stepper motor controls the needle distance, cutting thread and presser foot lift function, automatic reverse stitching, and stitching. Adopt rotary switcher device, users can change sewing model from normal to edge cutting easily. Different material, thickness and edge width are all suitable.

Clutchable knife switch: realize the switching of cutting and non-cutting sewing functions.

Electronic knee control: it's easy to lift the presser foot and no need change worker's sewing habit.

Sealed oil tank: it can avoid cloth dirty from oil, meantime to reduce noise during working.

Electronic thread tension device: compare with mechanical wire, it's more steable.

Control stitch length Trimming Pressure foot up/down

Product Features

Integrated intelligent direct drive system: scientific cooling circulation, slimmer body. New button display.

Stepping motor controls the stitch length and reverse stitching: precise stitch length, no noise in reverse stitching.

With the function of locking for start and after trimming, effectively shorten the stitch length, prevent off-thread.

5+2X can be set by yourself to produce 9 different pattern stitches.
